

THE Solar Calendar,

WITH

All the **D A Y E S**, **W E E K S**,
and **S A B B A T H S**, contained in
the great Year of our Re-
demption by **Jesus Christ**,
consisting of 3650 Years.

Made plain upon Twelve Tables, which
are Twelve Months in the common
Yearly Almanack, with which
every Day, Week and Sabbath
is compared, as well as with
every Year of the Promise,
and every Year of the World.

Whereunto is added,

Two Tables of the Seventy Weeks of Daniel :

The one containing 1715 Years, from the Time that
God went down with *Jacob* into *Egypt*, to the Death
and Grave of Christ.

The other Table containing 1715 Years, from the Re-
surrection to the end of this World.

Written as an *Appendix* to the Year of our Redemption.

*Psal. 39. 4. Lord make me to know my end, and the measure of my
days what it is, and I shall know how frail I am.*

*Psal. 90. 12. So teach us to number our days, that the we may apply
our Hearts to Wisdom.*

London, Printed for *John Harris*, 1693.

OF THE SOLAR CALENDAR.

A Calendar is a borrowed word, properly belonging to the Moon, for the Calends of every Month, are the first day of the Month, according to the Julian Year. But the Sun hath neither Months nor Calends, nor can the Motion of the Moon answer the Motion of the Sun by; 11 dayes, which they call the Epacts in every year.

So that the Monthly Calendar of the Moon, tho' it have its Column in these Tables, yet they can be of no Use in the Measure of Time, because it holds no proportion with the Sun, which is the universal Standard for the Measure of the Time in the Scripture for the Year of our Redemption. Nevertheless, I thought fit to give it a place in this great Year; because there is scarce a man of any small business in Europe, but makes use of the common yearly Almanack, or Calendar,

Of the Solar Calendar.

and is well acquainted with the Names of the Twelve Months, and with the Number of days in every Month, and that there are 52 Weeks or Sabbaths in every year, and one day overplus, which makes 365 days in the year.

So that this Solar Calendar is nothing else but a familiar comparing of the Days, Weeks and Sabbaths in the Yearly Almanack, which every Man knows, with the Days, Weeks and Sabbaths in the great Year of our Redemption, which hath been kept secret since the World began, but is now revealed by the Holy Spirit to be as aforesaid Ten Years for every Natural Day, Seventy Years for every Natural Week, and 3650 Years for the great Year of our Redemption, as by this SOLAR CALENDAR will most plainly appear.

OF THE
Construction and Use
OF THE
SOLAR CALENDAR.

THE *Solar Calendar*, or the Worlds *Almanack*, doth begin at the time of the Promise made to *Abraham*, in the 2078. year of the World, and in order 3650. years after, in the Year of the World 5728. It hath Twelve Months; and every Month hath Four Columns.

The First Column containeth the Number of Dayes in each Month, beginning at the *Æquinoctial*, which is the Tenth day of *March*, having 365 dayes in the Year of XII. Months.

The Second Column contains the Years of the World since the Creation, and therein you may see, what year of the World answereth to the Year of Promise.

The Use of the Solar Calendar.

The Third Column containeth the Years since the Promise was made, untill the Year of our Redemption.

The Fourth Column is the broad Space, which contains some Divine Record of Time, and of things performed in that Time, as well in what Year of Promise, as in what Year of the World.

This Fourth Column contains also the Beginning and Ending of the 49 Weeks of *Daniel*, which are also called *The 70 Weeks*, they begin at the Time when God went down with *Jacob* into *Egypt*, and end with the last day of the Promise, and of the great Year of our Redemption, and of the present World, for there is no day more or less in the Accompt.
